# **SERVICE PROVING-EXISTING INFRASTRUCTURE ASSETS**

## **Service Proving - Site Survey Report**

Where indications of existing assets are discovered during the site survey, their number, location and any action required to confirm the existence (or not) of assets in the area is to be listed in the space provided below.

This report must be kept in the red 900 Pre-Commencement folder on site as evidence that the site was adequately surveyed prior to service proving.
